

Academy of Forensic Medical Sciences

Diploma course in Forensic Medical Sciences

October 2022 - April 2023

£950

This seven-month online course comprises over 50 two-hour sessions and covers a broad range of subjects, including medico-legal aspects, forensic pathology, forensic human identification, clinical forensic medicine, and forensic toxicology. The course aims to offer an understanding and core knowledge of these subjects, which will be delivered by recognised forensic specialists.
